Mr. Menard informed the committee that the Auburn Open Space survey is in process and that soon there will be a survey going out requesting feedback from Auburn Residents, it will be available on line. The survey will serve to map out public interests and priorities regarding open space, conservation and recreational development.

Once again, Mr. Menard asked the committee members for their feedback on the survey and survey introduction before making it “live.”

Mrs. Kerins requested two minor changes be made; to include language that includes “swimming,” and to alter language in the survey to promote an understanding of Rotary Beach as being “currently” not accessible, as opposed to using definitive language.

Once more in reference to the survey Mr. Menard said that all comments from the committee members would be especially welcome.

In regard to the Auburn Open Space & Recreation Plan, Mr. Menard asked for questions comments on changes made to Section 4. He also requested help in looking over Section 6-9 from committee members.

No meeting minutes were approved.

Mr. Chambers motioned to adjourn and Mr. Binnal seconded. Vote was unanimous.

Meeting adjourned at 6:05 p.m.

Respectfully submitted,

Dominique Kerins
